

Title: Entry Level Landscape Architect

Reports To: President

Job Summary: Environmental landscape architecture design and project oversight.

Unity's Entry Level Landscape Architect position is an excellent opportunity for a professional who wants to join a growing and professional company pioneering environmental design and restoration. We are seeking a motivated professional to join our team.

Unity Landscape Design Build (ULDB) is a full-service landscape design and construction company located outside of Chestertown on the Eastern Shore of Maryland. For over 25 years, we have been a name synonymous with high quality environmental landscape design and craftsmanship. Our mission is the design and construction of ecologically sensitive and functional outdoor living spaces.

Core Responsibilities

- Work directly with sales team providing landscape architectural design and oversight services for waterfront residential, municipal, and non-profit clientele.
- Work directly with the Unity sales team, clients, engineers, and building architects.
- Analyze and incorporate collected environmental data into design and presentations.
- Develop plans using Vectorworks software.
- Develop and manage estimates in QuickBooks software.
- Source plant material and other materials for projects sold.
- On-site layout and oversight of projects.
- Establish relationships through networking with local communities, counties, and state level agencies, environmental organizations, river keepers and related entities for project collaboration and growth.
- Assist or complete permitting applications for projects requiring permits.
- Attend required training, certifications, etc. as required to provide the essential functions of the position and to maintain licenses.

Preferred Qualifications and Competencies

- ASLA license preferred but will consider candidates with extensive experience and design backgrounds in lieu.
- Experience with high-end residential and environmental landscape projects.
- Proficient Vectorworks or CAD-based design skills.
- Strong interest in wetland restoration, stormwater management design and ecological restoration techniques.
- Exceptional verbal and written communication and interpersonal skills.
- High attention to detail and strong ability to multi-task.
- Ability to work independently and as a member of a team.
- Effective time management skills.
- Ability to maintain professional decorum and confidentiality.

Education

- Bachelor's degree in related field.

Compensation and Benefits

- Salary \$45,000-\$55,000.00 per year commensurate with experience.
- Commission on gross sales secured if sales package is included in position.
- Competitive benefits include vacation, health insurance, and IRA retirement plan.
